

# 2024 International Conference on Environmental Monitoring and Governance (ICEMG2024)

Shenzhen, China | 2024.1.19-20

## IMPORTANT DATES

Submission Date:

**September 20, 2023**

Acceptance Notification:

**October 19, 2023**

Registration Deadline:

**November 16, 2023**

## SUBMISSION METHOD

Please submit the papers/abstracts to [cfp@icemg.org](mailto:cfp@icemg.org)

Note: Submissions should report original, previously unpublished research results, and must not be under consideration for publication elsewhere.

## WHY ATTEND

✓ Gain a cross-cultural view of the latest trends on environment monitoring and governance.

✓ Enjoy regional diversity through structured networking with international colleagues.

✓ Expand the reach of your research – knowledge exponentially increases in value when it's accessible globally.

✓ Utilize this event to discover the charming city of Shenzhen and immerse yourself in all it has to offer.

## INTRODUCTION

We are happy to announce that 2024 International Conference on Environmental Monitoring and Governance (ICEMG2024) will take place in Shenzhen, China on January 19-20, 2024.

This conference is focused on the latest concepts of environmental monitoring and governance with consideration for global implications of emerging contaminants, peak carbon dioxide emissions, carbon neutrality, pollution control, climate change and other sensitive environments.

ICEMG2024 offers a technical program aimed at keeping you up to date with the latest trends, regulations, methods, techniques and technologies. We hope that you will have a productive and fun-filled time at this very special conference.

## TOPICS OF INTEREST

Topics of interest for submission include, but are not limited to:

### Environmental Monitoring

- Emerging Contaminants
- Peak Carbon Dioxide Emissions
- Carbon Neutrality
- Design and Development of Monitoring Systems
- Methods and Procedures for Pollution Risk Assessment
- Monitoring, Remediation, Assessment and Protection of Water Resources
- Environmental Planning and Assessment

### Pollution Control, Climate Change and Environment Health

- Wastewater Management and Treatment
- Water Pollution and Treatment
- Air Pollution and Treatment
- Soil Pollution and Treatment
- Marine Pollution and Treatment
- Environmental Health and Climate Change
- Novel Innovations to Control Pollution

### Waste Management

- Wastewater Management
- Bioenergy and Biofuels from Waste
- Solid Waste Management, Construction and Demolition Wastes
- Waste Collection, Transportation and Transfer Technologies
- Management of Hazardous waste (Clinical, Industrial, E-waste, Chemical Waste)
- Plastic Pollution: Prevention and Management
- Environmental Remediation
